**Public Comments:** None

**Appearances:** Joe Formiller, Town of Seneca. The township will be replacing the existing cement bridge on South Rd. due to safety reasons. The township has been working with Bobbi Jo Fisher, DNR, on the culvert replacement. The timeframe for replacement would be the fall of 2015. The township is proposing 2 – 7' x 12' culverts. The township would like to know how soon the board needs the plan submitted and if a special meeting is needed to approve the plans.

**Seneca-Warren Drainage District – Sucker Creek/Lateral A:** The board will be contacting their attorney about the water that is still coming into the Town Ditch. The board would like it back into Sucker Creek. MSA submitted an estimated project cost per the boards request, via email, with a figure of \$150,000 total project cost. The board would like a meeting with the DNR, Attorney William Curran and the board to come up with a solution to this problem. The board will contact their attorney to draft a letter to the DNR.

**Survey Lateral A to Hwy D:** The board read the email correspondence from Morris, Green Lake County Land Conservation Department, on the information that he received from Carl Chenoweth, REA. Dolata feels that the profile line elevation is incorrect because the survey information is incorrect.
