DRAFT

August 5, 2020

Dear Green Lake County Board,

I have attached a digital copy of the online petition that I put on Change.org; this petition has received over 1000 online signatures. Please note that while I have not vetted each of the signatures as Green Lake County residents many that did sign online for some reason had their address show up from other parts of the country even though they are current residents of Green Lake County. I am told it is a glitch in the system as Change.org will pull from the IP address origin, etc.

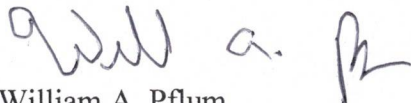

Regardless you will see many names on the petition that are your friends and neighbors. These are all people that want to see their ambulance service stay in the hands of their local government.

I also have attached several pages of hand signed petition forms that have been collected.

I have attached the document that describes what the petition stands for and what the people that have signed all agree with on petition.

I know this petition isn't binding and has no legal effect on your decision, however, I do hope that you at least realize and consider that many residents of Green Lake County do not want to see a change to their ambulance service.

Thanks for your time,

William A. Pflum
City of Markesan Resident

Green Lake County is currently doing a study on creating a county wide ambulance service. After this study is complete the Green Lake County Board will vote on whether it will create a county wide ambulance service or leave the ambulance service options to the local municipality.

As a signer of this petition, you are a Green Lake County resident or taxpayer and want to see ambulance service stay in the hands of local government. Southern Green Lake County Ambulance service is made up of all the communities and townships in the southern half of Green Lake County we all pay our fair share and make decisions locally with each municipality having a voice.

The Southern Green Lake Ambulance is alive and well because it is a local grass roots organization with a ton of personal hometown pride! They are always able to staff one ambulance and approximately 90% of the time can quickly staff the backup unit if needed. That's because the volunteers that make up Southern Green Lake County Ambulance are local citizens of our community and care deeply for their neighbors.

There is simply no reason that we need to give up our local ambulance service. If others have issues they should explore other options but not drag us with them into a county ran system that will no longer be controlled or managed locally.

Our service is a very cost effective ambulance service assessing only around \$75,000 to the tax payers of the eight townships and communities that make up our ambulance service area. That is an extremely cost-effective service that provides outstanding care to all the community members of Southern Green Lake County.

With this petition we ask that the Green Lake County Board realize that even though a county wide service might be "feasible" it's not the right thing for Southern Green Lake County!

As the old saying goes if it isn't broke don't fix it. Our service is alive and well so we don't need to hear about what ifs. The bottom line is our service is strong and will remain strong with the hometown pride we have in helping out our communities and neighbors.

If you are a resident or taxpayer of Green Lake County and agree with the above statement please sign and have your voice heard.
