Process Change for Vaccine Appointments in Green Lake County

The Green Lake County Health Department will be changing the way that appointments are scheduled for upcoming COVID-19 vaccine clinics. Currently, the health department has been keeping a waitlist for individuals wanting a COVID-19 vaccine. Once our weekly vaccine allocation is known, staff then calls these individuals to schedule appointments. There are currently over 1,500 people on the waitlist. This process has proven to be inefficient for our staff to make the many phone calls needed to fill vaccine appointments since many people on the list have already received their vaccine elsewhere. Over the next several weeks, depending on vaccine amounts received, staff will continue this process to schedule appointments via the waitlist for anyone currently needing a vaccine. **We will not be adding new persons to the waitlist as of 02/15/2021.** Once the waitlist individuals have all been scheduled for their vaccine appointments, the Green Lake County Health department will be taking appointments on a first call basis each week for eligible vaccine recipients. More information on this process will be released after the waitlist has been completed.

If you are currently on the Green Lake County Health Department waitlist and have already received your COVID-19 vaccine elsewhere, please call us at 920-294-4070 so that we may remove your name.
