Re: Courtroom upgrades

Dear Administrator Schmit,

Enclosed are copies of two proposals regarding video and audio upgrades to both Courtrooms 1 and 2. As you are aware, the current audio and video systems in both courtrooms were not the most advanced when installed 13 years ago and have since become outdated. Many parts have broken or are starting to break. As an example, the television which was used to show video participants in courtroom 1 has broke, and the Polycom system in courtroom 2 longer works. The cost to replace the Polycom system alone is over \$10,000.

Because of this, I have received two bids regarding replacing the video/audio systems in both courtrooms and updating some of the wiring. (This will incorporate more wireless capabilities.) This will improve both the audio, video and communication capabilities and make upgrading in the future more cost effective.

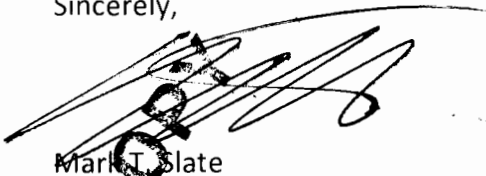

When this was originally bid out the proposals all came in over \$500,000 to replace all equipment in both courtrooms. We have scaled back the project to include just video, some audio and adding wireless capabilities. CEC has come in with a bid of \$107,314.84. Automation Arts originally made a bid of \$92,000.71, but have since pulled their bid and are no longer interested in proceeding with the project.

Even though CEC's bid was higher, my recommendation would have been to accept their bid, as they are the company who has provided service to the audio/video systems when there have been difficulties in the past, and would be the company to service any issues in the future. Automation Arts does not provide service to the equipment. It makes sense to accept CEC's bid so they would then service their own equipment if there are issues in the future.

I am forwarding both bids to you for your input. I assume the bid will need to be reviewed by Corporation Counsel. I am forwarding copies of the bids to IT and the Jud/Law Committee for their information as well. As you are aware, the IT department was involved when the project was bid out and have approved of the specs previously.

I do not know if this would be an area where ARPA funds could help with the cost. We have had an increase this year in probate fees. We originally estimated \$9,000 of income but due to a large estate, we have over \$40,000 in income this year. That additional income could also be used to offset the cost. I wait to hear from you on the next step to take.

Sincerely,

Mark T. Slate

Executive Summary

Lead Times and Cost Increases

Dear Valued Customer,

The Covid 19 pandemic has created global supply chain disturbances. Logistics capacity has been resulting in inaccurate shipment dates and increasing lead times and costs. Unemployment has dropped to pre-pandemic levels resulting in tight talent availability. Economists do however, expect normalization within six (6) months.

As your partner, we want to provide transparency around the potential impact to project and service work which could include:

- Extended material lead times negatively impact our ability to meet desired schedules;
- Material availability extending project completion dates;
- Quote requiring review when pricing is over 30 days old to align with current material costs that could result in a project cost change;
- Talent availability may push out schedules.

CEC is focused on mitigating these effects for you through these initiatives.

- Close engagement with suppliers on long term forecasts and availability.
- Advanced equipment ordering within 30 days of proposal acceptance to lower lead times and avoid price increases.
- Qualifying new suppliers.
- Increased purchase commitments to suppliers to secure supply on critical components.
- Additional recruiting and subcontracting resources to manage labor constraints.

What is the impact to you:

- **Advanced equipment ordered will be invoiced as it is received by CEC.**
- **Equipment storage arrangements will be coordinated if necessary.**

Delivering a great customer experience is our priority. We will be honest and forthcoming if we find these short-term issues will impact your outcomes.

Thank you for your partnership,

Kim Lehrman

TERMS AND CONDITIONS

1. Contract Terms. These terms and conditions (the "Terms") and the accompanying proposal (the "Proposal" and collectively, with the Terms, this "Agreement") comprise the entire agreement between Automation Arts, LLC ("Automation Arts") and you ("Customer") and supersede all prior or contemporaneous understandings, agreements, negotiations, representations and warranties, and communications, both written and oral. In the event of any conflict between these Terms and the Proposal, these Terms shall govern, unless the Proposal expressly states that the terms and conditions of the Proposal shall control. These Terms prevail over any of Customer's general terms and conditions regardless whether or when Customer has submitted its request for proposal, order, or such terms. Provision of services or equipment to Customer does not constitute acceptance of any of Customer's terms and conditions and does not serve to modify or amend these Terms.

2. Services. Automation Arts shall provide the services (the "Services") and equipment and systems ("Equipment") to Customer as described in the Proposal in accordance with these Terms.

3. Performance Dates. Automation Arts shall use reasonable efforts to meet any performance dates specified in the Proposal, and any such dates shall be estimates only.

4. Customer's Obligations. Customer shall: (i) cooperate with Automation Arts in all matters relating to the Services and the Equipment and provide such access to Customer's premises, and such office accommodation and other facilities as may reasonably be requested by Automation Arts, for the purposes of performing the Services and delivering the Equipment; (ii) respond promptly to any Automation Arts request to provide direction, information, approvals, authorizations or decisions that are reasonably necessary for Automation Arts to perform Services and deliver Equipment in accordance with the requirements of this Agreement; (iii) provide such customer materials or information as Service Provider may reasonably request to carry out the Services in a timely manner and ensure that such customer materials or information are complete and accurate in all material respects; and (iv) obtain and maintain all necessary licenses and consents and comply with all applicable laws in relation to the Services before the date on which the Services are to start.

5. Customer's Acts or Omissions. If the performance of Automation Arts of its obligations under this Agreement is prevented or delayed by any act or omission of Customer or its agents, subcontractors, consultants or employees, Automation Arts shall not be deemed in breach of its obligations under this Agreement or otherwise liable for any costs, charges or losses sustained or incurred by Customer, in each case, to the extent arising directly or indirectly from such prevention or delay.

6. Change Orders:

(a) If either party wishes to change the scope or performance of the Services or modify the Equipment to be delivered, that party shall submit details of the requested change to the other party in writing. Automation Arts shall, within a reasonable time after

such request, provide a written estimate to Customer of: (i) the likely time required to implement the change; (ii) any necessary variations to the fees and other charges for the Services arising from the change; (iii) the likely effect of the change on the Services; and (iv) any other impact the change might have on the performance of this Agreement.

(b) Promptly after receipt of the written estimate, the parties shall negotiate and agree in writing on the terms of such change (a "Change Order"). Neither party shall be bound by any Change Order unless mutually agreed upon in writing in accordance with Section 27.

(c) Notwithstanding Section 6(a) and Section 6(b), Automation Arts may, from time to time change the Services without the consent of Customer provided that such changes do not materially affect the nature or scope of the Services, or the fees or any performance dates set forth in the Proposal.

(d) Automation Arts may charge for the time it spends assessing and documenting a change request from Customer on a time and materials basis in accordance with the Proposal.

7. Fees and Expenses; Payment Terms; Late Payments. In consideration of the provision of the Services and Equipment by Automation Arts and the rights granted to Customer under this Agreement, Customer shall pay the fees set forth in the Proposal. Customer agrees to reimburse Automation Arts for all reasonable travel and out-of-pocket expenses incurred by Automation Arts in connection with the performance of the Services and delivery of the Equipment. In the event payments are not received by Automation Arts within 10 days after becoming due, Automation Arts may: (i) charge interest on any such unpaid amounts at a rate of 1.5% per month from the date such payment was due until the date paid; and (ii) suspend performance for all Services and delivery of all Equipment until payment has been made in full. All payments made by credit or debit card will be subject to an additional 2.5% surcharge.

8. Taxes. Customer shall be responsible for all sales, use and excise taxes, and any other similar taxes, duties and charges of any kind imposed by any federal, state or local governmental entity on any amounts payable by Customer hereunder.

Customer agrees to use the Confidential Information only to make use of the Services and Deliverables. Automation Arts shall be entitled to injunctive relief for any violation of this Section.
