### B. County CCOP Administration

For each numbered item below, please check the box to indicate a brief summary has been completed and any required documentation has been included with the plan submission.

#### 1. County CCOP Operations

- ☒ Describe your county agency's proposed CCOP operational policies including guidelines that address cost-effectiveness, the CLTS Waiver Program mandate, quality services, and maximum flexibilities in addressing local needs regarding the following activities:
- Access
  - Intake
  - Assessments

Brief summary: The CCOP Coordinator and CLTS Waiver Coordinator will address referrals for programming following the Children's Community Options Program (CCOP) Procedures Guide for Administering Agencies updated in May, 2024 (P-01780). The statutory and program requirements established in 2015 Act 55, in the biennial budget, which created Wis. Statute 46.272, will guide all operations of the program.

#### 2. Estimated number of families that will be assessed and served

- ☒ Provide an estimated number of families that will be assessed and served utilizing CCOP funds during 2022.

Brief summary: A majority of Children's Long Term Service needs are met through the CLTS Waiver. CCOP funding is used for services not allowed in the Waiver and for families who are not interested in applying for Medicaid, which is a requirement of the Waiver. In 2025, we would anticipate using CCOP funding for approximately 6-7 families.

### 3. Priority for Available Funding

- ☐ Provide a list of the specific groups, if any, that your county agency will give priority for available funding, including any local cost-effectiveness guidelines, the CLTS Waiver Program mandate, quality services, and maximum flexibilities in addressing local needs.

---

Brief summary:

---

### 4. Outreach Procedures for Children with Disabilities

- ☒ Provide a description of your county agency's local outreach procedures that will be used to ensure families are informed and aware of the CCOP funding availability. Describe the county agency's operational guidelines to ensure funds are used cost effective manner and are available to children with physical, emotional and developmental disabilities.

---

Brief summary: Green Lake County's CCOP Coordinator also serves as the Birth to 3 Program Coordinator and as a Support and Service Coordinator (SSC) for CLTS Waiver's along with three other CLTS Waiver SSC's. In addition, on-going collaboration with other employees of Health and Human Services and the Local Education Agencies and other community partners including the Family Resource Council provide for opportunities to share information regarding the program and process for referrals. Children must meet the eligibility through the Functional Screen and first be served through Children's Waiver if eligible and the service needed is a covered waiver service.

---

### 5. Determining Family Needs

- ☒ Describe your county agency's local operations and cost effective procedures that will be used to assess and determine the family's needs.

---

Brief summary: When a family or referral source contacts the Children's Community Options Coordinator to initiate a referral they will be asked what the anticipated need/s of the family is/the reason for the referral. Given that the home and community-based services (HCBS) Medicaid Waiver Program funding must be used first (waiver mandate), the CCOP Case Manager will confer regarding the referral and will determine with the CLTS Waiver Lead on who will complete the Functional Screen. If the service the family may be seeking is not an eligible good or service allowable through waiver, a one-time need or the family is not interested in Medicaid, the CCOP Case Manager will most likely complete the functional screen for eligibility. If eligible, the Deciding Together Guide will be used to facilitate and Individualized Service Plan with outcomes.

---

### 6. Methods for Developing/Monitoring Service Plans and Coordinating Services

- ☒ Provide a description of the cost-effective methods your county agency will use to develop, coordinate and monitor the provision of quality services and goods to children and families.
- ☐ Include your county's local CCOP written policies and procedures and/or other materials to document the coordination with other county or locally administered programs to ensure the CCOP funds are used as the payer of last resort (e.g., the Birth to 3 Program, Children's Long-Term Support [CLTS] Waiver Program, Comprehensive Community Services [CCS], Economic Support programs, Juvenile Justice, child welfare services, Department of Public Instruction school-based services, or other locally funded services).

---

Brief summary: The CCOP Coordinator will use the CCOP Procedures Guide for Administering Agencies to assure that the funds are used cost-effectively and as the payer of last resort.

---

## 7. Methods used to Promote Informal Support and Advocacy Systems

- ☒ Provide a description of your county agency's methods used to promote cost effective informal support and advocacy systems for families. Include documentation and/or materials that describe your county's methods of enhancing informal supports and advocacy for families with children with disabilities.

---

Brief summary: The CCOP Coordinator works closely with families to explore all options of funding and resources that are available to them based on the child's disability exploring both their natural and informal supports. The case manager explores all funding resources that may be available to children with disabilities including but not limited to: SSI, Katie Beckett, VEYO Medical Transportation, Badgercare, food share and WIC. Other referrals made for advocacy and support may include Children and Youth with Special Health Care Needs and the CESA 6 Family Engagement Coordinator.

---

## 8. County's CCOP Monitoring Methods

- ☒ Describe the methods that your county agency will use to monitor the cost effectiveness and quality of the CCOP operations. Include documentation and/or materials that describe your county agency's CCOP monitoring protocols.

---

Brief summary: The CCOP Coordinator will apply the CCOP Procedures Guide for Administering Agencies that the State Provides to assure that the funds are used cost-effectively. The CCOP Coordinator will share information regarding the status of the program at the quarterly Family Resource Council meetings. On-going communication between the CCOP Coordinator and Waiver SSC's will take place to assure that the children are first being served through waiver (if applicable) prior to using CCOP funding. ---
