## LAND USE PLANNING AND ZONING COMMITTEE STAFF REPORT

PUBLIC HEARING

February 5, 2026

### ITEM I: ZONING CHANGE

**OWNER:**

Eugene & Kathleen Thom

**APPLICANT:**

Same as Owner

**REQUEST:** The owners are requesting a zoning change for ±9.08 acres from R1, Single-Family Residence District, to A2, General Agriculture District to be identified by Certified Survey Map.

**PARCEL NUMBER / LOCATION:** The request affects parcels numbered 002-00001-0000, 0100, 0200 and 0300 (±9.08 acres). The parcels are located in the NE ¼ of the NE ¼ Section 1, T17N, R13E, Town of Berlin.

**EXISTING ZONING AND USES OF ADJACENT AREA:** The current zoning of the subject parcel is R1, Single-Family Residence District and is used recreationally with not much agricultural uses present. All of the surrounding parcels are zoned A1 and are used for agriculture and rural residential use.

**ADDITIONAL INFORMATION / ANALYSIS:** The current use of the proposed rezone area is 3 acres of old farm field, with a large pond/wetland that has been present from at least 1992. The proposed use of the rezone area is to be agricultural, pasture, with a rural residential use. The proposed rezone area does not fall within floodplain jurisdiction.

**REZONING CRITERIA PER §350-75.A.:** Land may be rezoned if all of the following are found after public hearing: **(Staff comments in bold)**

The amendment is consistent with community land use plan (comprehensive plan). **The proposed rezone is consistent with the county's comprehensive plan as the A2 district was designed to be consistent with other agricultural zoning districts.**

The amendment will not be detrimental to property in the immediate vicinity or to the community as a whole. **The rezone has little potential to be detrimental to neighboring properties or properties abroad.**

The amendment will not have a significant adverse impact on the natural environment (i.e., air, water, noise, stormwater management, soils, wildlife, vegetation, etc.), or the impact could be mitigated by management practices on the site or in the immediate vicinity. **There is no indication that an adverse impacts on the natural environment would occur if the amendment were to be approved.**

The amendment will not have a significant adverse impact on the ability to provide adequate public facilities or services (i.e., highways, streets, water, sewage, drainage, schools, emergency services, etc.). **This rezone will not have a significant adverse effect on public facilities or services.**

The amendment allows a more viable transition to planned land uses on adjacent properties than the current zoning designation. **The amendment has no negative effect on planned land uses as the A1 and A2 districts are both agricultural.**

The amendment will not result in inappropriate spot-zoning (i.e., use is inconsistent with surrounding properties and serves only a private, rather than public interests). **As there are only A1 zoning districts surrounding this parcel, this rezone would not be considered spot-zoning. A2 is still considered agriculture.**

**TOWN OF BERLIN**: An Action Form requesting the Town's input related to this zoning change request was sent to the Town Clerk. At their town board meeting on January 19<sup>th</sup>, 2026, the Town Board did not object to and approved of the request.

## Land Use Planning and Zoning Committee Staff Report

Public Hearing

February 5, 2026

### Item II: Conditional Use Permit (CUP)

Owner:

Lakeview Inn Land LLC

Applicant:

Randall and Shanda Farr

**Request:** The owner/applicant is requesting a conditional use permit. The use would include the current bar, restaurant, and apartment rental operation, as well as to add boat slips for rent.

**Parcel Number/ Location:** The request affects parcels 006-01270-0000 ( $\pm 0.26$  acres) and 006-01271-0000 ( $\pm 0.12$  acres). The parcels are located in the SW  $\frac{1}{4}$  of the SE  $\frac{1}{4}$  of Section 29, T15N, R13E, Town of Green Lake. The site address is N2905 State Rd 44.

**Existing Zoning and Uses of Adjacent Area:** Both parcels are zoned C1, General Commercial District. The property is currently being used as a restaurant/bar. A garage spans the two parcels but the restaurant/bar, apartment and boat slip rental activities are located on parcel 006-01270-0000. To the West and South, the property is bordered by Little Green Lake. To the North, there are residential properties all zoned R1, Single Family Residence District. To the East across State Road 44 the properties are zoned A1, Farmland Preservation District. The western properties are either farmed or are left as forested lands. A portion of the existing restaurant/bar parking lot is located within State Road right-of-way.

**Additional Information/Analysis:** Originally this property was developed as a bar/restaurant in 1930. Additionally, there is a furnished apartment above the bar/restaurant that has been previously rented out, and the applicants intend to continue renting the apartment in the future. These established uses predated the zoning ordinance which resulted in the bar/restaurant becoming a nonconforming use when zoning was enacted in the Town of Green Lake. Due to a newly proposed use on the property, of renting out boat slips, a CUP is required. The CUP would also need to include the previous nonconforming uses to be authorized and have all uses approved under the CUP. Back in August of 2025 the WDNR approved of a pier permit that would allow for 12 boat slips to be placed on the frontage of parcel 006-01270-0000. The applicant intends to rent out 9 slips with 2 slips being used for patrons of the bar/restaurant and 1 slip to be for personal use of the owners.

**General Standards for Review of Conditional Use Requests:** It is important that the Committee maintain the purpose and intent of the County Zoning Ordinance when reviewing and approving a request of this nature. The Committee shall take into consideration, among other things, the recommendation of the affected town and the particular facts and circumstances of each proposed use in terms of the standards found in Section 350-56 "Review of permit application; standards and conditions" of the County Zoning Ordinance. The Committee need

not consider requirements that would apply to the local Town, other County, State or Federal entities of jurisdiction.

**County Staff Comments:** This request should be reviewed by the Committee to determine if it meets the general criteria for review as cited above. If the Committee wishes to approve this request, the following conditions may be appropriate:

1. No additional expansion or addition of structures and/or uses relating to this conditional use permit shall occur without review and approval through future conditional use permit(s).
2. That the owners/applicants are responsible for obtaining permits and licenses from any other regulatory agency, if required.
3. That any outdoor lighting on the property shall be shielded or hooded.

**Town of Green Lake:** The Town Board Action request for the Conditional Use Permit was heard by the Town Board at their January meeting. The Town Board does not object to and approves the request.

### APPLICATION FOR CONDITIONAL USE PERMIT

The purpose of the conditional use permit process is to utilize the minimum review standards of the zoning ordinance (Green Lake County Code Chapter 350, Section 56) to determine the effect of the proposed use on the neighborhood and suitability of proposed development at the proposed location. Conditions are added to the request to minimize any impacts to the surrounding properties, if the request is consistent with the adopted Green Lake County Comprehensive Plan.

Prior to the Department accepting the application, the following items need to be completed and/or provided by the owner or applicant:

- Consultation with the staff in the Land Use Planning & Zoning Department
- Application completely filled out, including property information, legal description, and detailed description of proposed use
- Detailed site plan on paper not larger than 11" x 17", drawn to scale and including location of: lot lines, all building and structures with dimensions, all components of private onsite wastewater treatment systems like septic tanks and drain fields, public and private roads including access easements, navigable waterbodies, well location, and the setback distances between all the above
- Fee as set by the Committee for a public hearing item

### OPERATIONAL PLAN NARRATIVE

The operational plan is intended to address all components of the business, from establishment through to present operation. This narrative should be two or more paragraphs that address the following questions, from the perspective of the proposed use:

- What is the history of the business and/or applicant? *Business 90 years old. Bought in 2020*
- What is the history of the property and its current use?
- Describe in detail the proposed use of the property.
- If applicable, include an operation and/or maintenance plan. *Year round normal bar/rest. business hours*
- When will the property be used? (Seasonally? Set daily hours?) *Open in by May 1st and out before freeze*
- What will be done with the current structures, if any?
- Will any new structures be built? If yes, how will they be used and where will they be located? *For new*
- What hazards, concerns, or disruptions may your proposed use pose to neighboring properties and the community as a whole? How can those concerns be addressed? *WDNR approach*
- What will be done to protect the human and environmental health of the surrounding area from negative impacts of this use? *WPNR closing at marine*
- Why was this property chosen for this business activity? How will this use benefit the community by being located on this specific property?
- How would this business activity meet goals and objectives of the County's Comprehensive Plan? (This will be clear after meeting with Department staff prior to submitting the Conditional Use Permit application, as required above.)

Fee Received (Non-Refundable) 375.00

Date 10-16-25

By signing and submitting this completed application with public hearing fee, the applicant or agent requests the Land Use Planning & Zoning Committee consider the conditional use permit request at the next available public hearing.

We are Randall & Shanda Farr. We are the owners of Lakeview Land LLC and are the operators of the Lakeview Inn. We purchased the property in November of 2020. The Lake View Inn bar and restaurant has been a business on Little Green Lake since the 1930s. During that time patrons have enjoyed access to the Lakeview Inn by land and by lake.

The Lakeview Inn is open year-round, seven days a week. Hours of operation are 11:00am to bar time. The included building use plan indicates how the bar/restaurant is laid out. The site plan indicates where the property is located as well as where patrons are able to park. The only other building on the property is a detached garage. We use the garage to park a vehicle and store personal items. It is also worth mentioning that there is a furnished apartment above the bar / restaurant that is currently vacant, but we have rented it a few times in the last few years. We would expect to retain this option as well through this conditional use permit (CUP) approval process.

We are aware that our use of the property as a bar / restaurant is a legal nonconforming use. If we simply maintained this use county zoning would not require a CUP. If we were to add a new use, we are aware that county zoning not only requires the new use to be authorized by CUP, but the nonconforming use also needs to be authorized by CUP.

The closing of the Little Green Lake Marina eliminated 40 (or so) rental boat slips. Prior to the marina closing, the marina's owner contacted us to inquire if we'd be interested in establishing a few boat slips for rent at the Lakeview Inn. As a way to help the folks that had lost their marina slips, we reached out to the WDNR. The WDNR explained the process and eventually, on August 29<sup>th</sup>, 2025 our pier permit was approved, subject to local zoning approval. The frontage that both of our lots have on Little Green Lake yielded approval of 12 boat slips. Our intention is to use one of the slips for personal use, two slips would be for bar / restaurant patrons, and the remaining 9 slips would be rented out seasonally. The approximate size and location of the pier system is indicated on the included pier plan.

The WDNR's approval process included a public hearing which was held on August 4, 2025 at the Markesan City Hall. Approximately 31 individuals attended the hearing with several providing verbal testimony. Written public comments were also received and presented at the public hearing. Many in the audience supported the addition of the new rentable slips due to the need created by the closing of the marina. Others had concerns that the increased boat traffic in the shallow bay would cause impacts to water quality, aesthetics, recreational safety and aquatic habitat. The affiliation of the slips

with a bar led one member of the audience to voice concerns over boating safety and negligent boating. Another concern was that the lighting associated with the new slips would be a detriment to natural scenic beauty and star-gazing.

The WDNR reviewed our permit application and considered all of the public testimony and comments. In the end the WDNR approved our pier permit as they found that the pier system "will not be detrimental to the public interest in aquatic habitat, water quality, public recreation or natural scenic beauty." The permit states that all of the resource managers (in water quality and fisheries) that were asked to review the proposal selected to "grant the application with the usual conditions." Notwithstanding the above, we heard the concerns of the public and of our neighbors and aim to do what we can to limit any negative impact resulting from this proposal.

In addition to everything stated above, the approval of our CUP request would resolve a legal nonconforming use that goes back almost a century. The County's comprehensive plan encourages commercial uses to locate in planned / designated areas. As our parcels are zoned commercially, adding this new commercial use meets this goal of the comprehensive plan. Further, the comprehensive plan's goal for Green Lake County to be a regional destination for commerce and tourism, is supported through our proposal by providing additional access to quality natural resources.

We thank the Land Use Planning & Zoning Committee for their time and consideration of our conditional use permit request.

Sincerely,

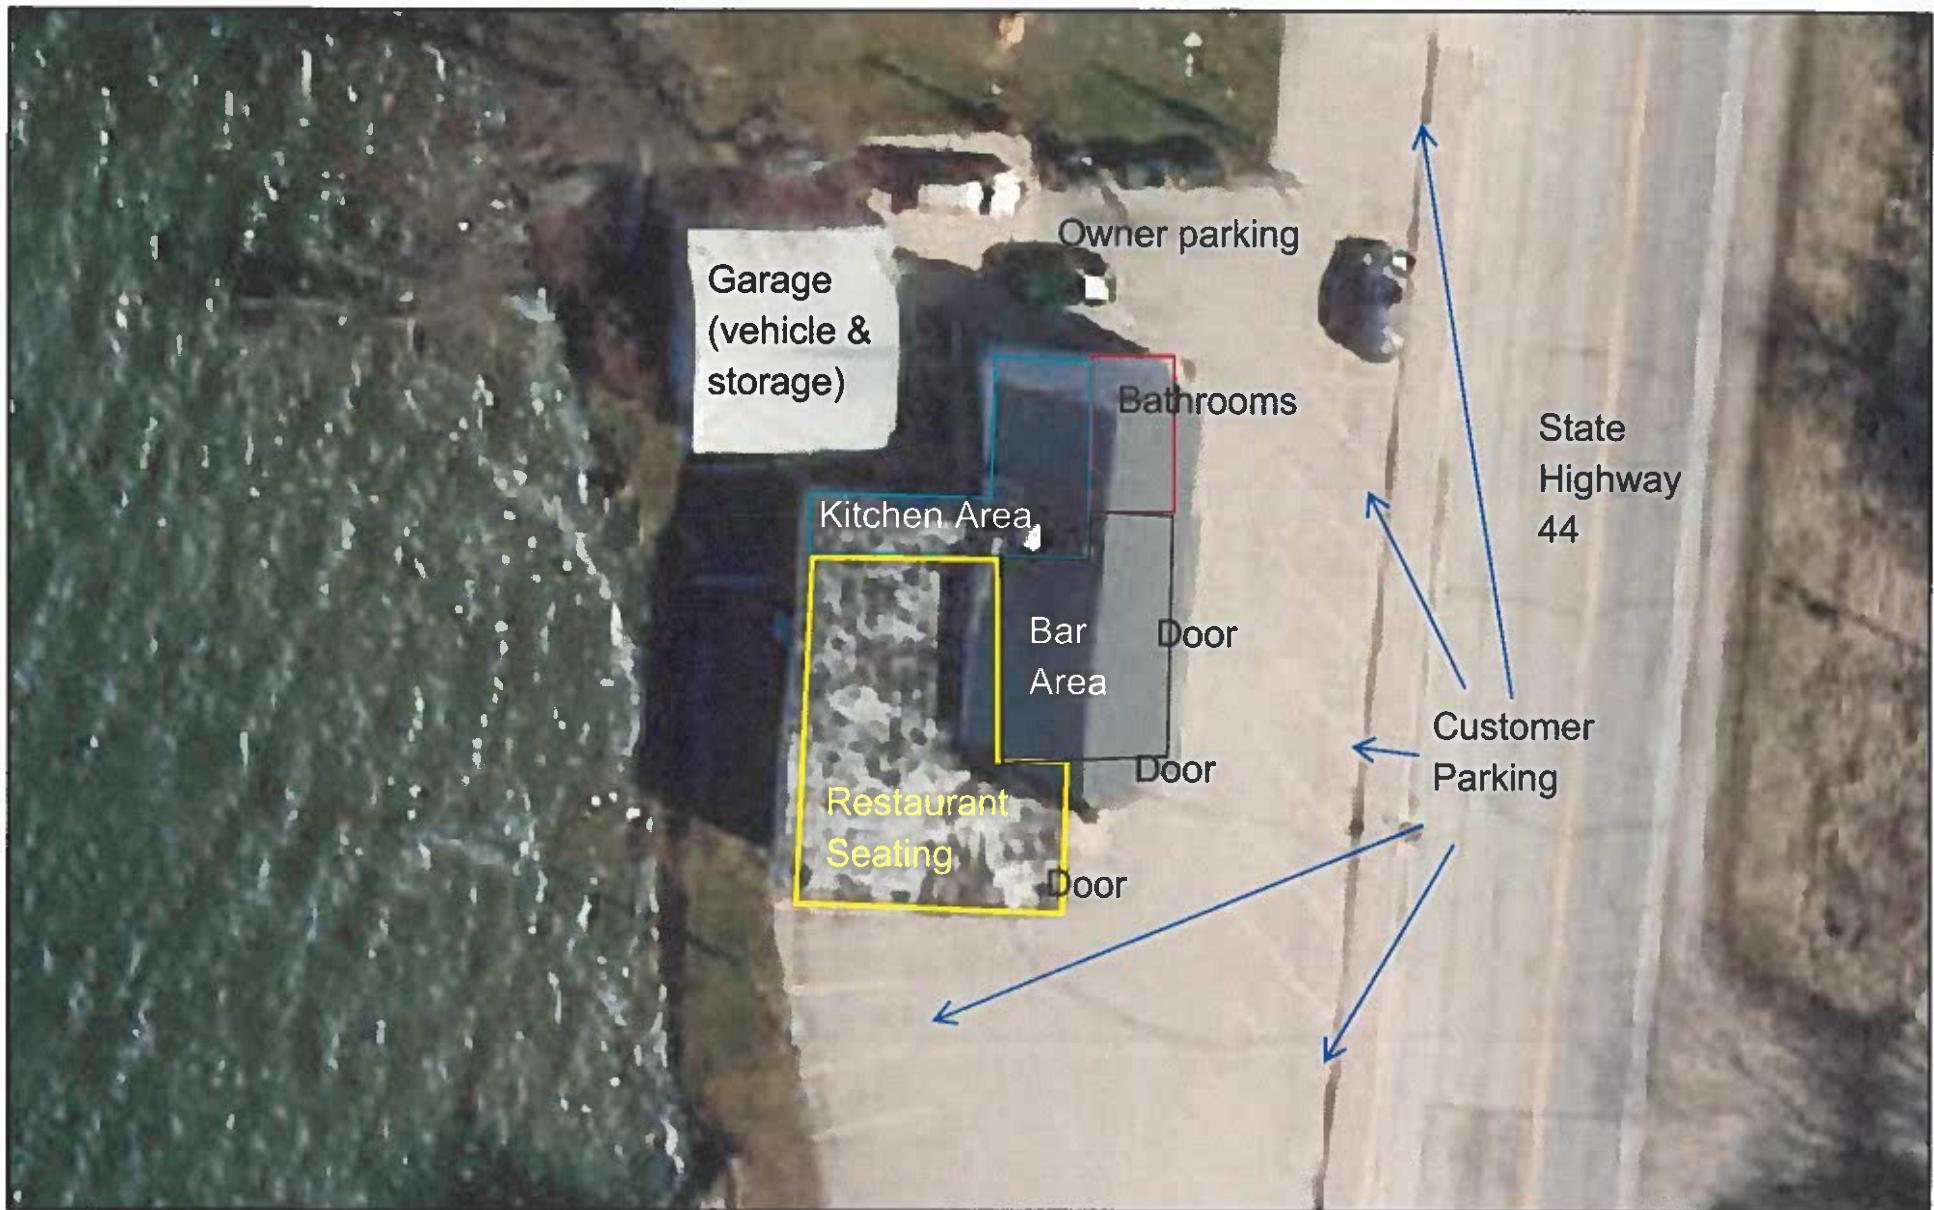

Randall S Farr  
Farr

RE: Application to place a pier on Little Green Lake in the Town of Green Lake, Green Lake County

Dear Farr:

The Department of Natural Resources has completed its review of your application for a permit to place a pier on Little Green Lake located in the NW 1/4, NE 1/4, Section 32, Township 15, Range 13E, Town of Green Lake, Green Lake County. You will be pleased to know your application is approved.

I am attaching a copy of your permit, which lists the many important conditions that must be followed to protect water quality and habitat. **A copy of the permit must be posted for reference at the project site.** Please read your permit conditions carefully so that you are fully aware of what is expected of you.

Please note you are required to submit photographs of the completed project within 7 days after you've finished construction. This helps both of us to document the completion of the project and compliance with the permit conditions.

Your next step will be to notify me of the date on which you plan to start construction and again after your project is complete.

If you have any questions about your permit, please call me at (608) 445-4751 or you can reach me by email at [haley.anderson@wisconsin.gov](mailto:haley.anderson@wisconsin.gov).

Sincerely,

*Haley Anderson*

Application of Randall Farr is hereby granted under Sections 30.12 and 30.208, Wisconsin Statutes, a permit to place a pier on Little Green Lake located in the NW 1/4, NE 1/4, Sec. 32, T. 15, R. 13E, Town of Green Lake, Green Lake County, subject to the following conditions:

PERMIT

1. You must notify Haley Anderson at phone (608) 445-4751 or email [haley.anderson@wisconsin.gov](mailto:haley.anderson@wisconsin.gov) before starting construction and again not more than 5 days after the project is complete.
2. You must complete the project as described **on or before August 29, 2028**. If you will not complete the project by this date, you must submit a written request for an extension prior to expiration of the initial time limit specified in the permit. Your request must identify the requested extension date. The Department shall extend the time limit for an individual permit or contract for no longer than an additional 5 years if you request the extension before the initial time limit expires. You may not begin or continue construction after the original permit expiration date unless the Department extends the permit in writing or grants a new permit.
3. This permit does not authorize any work other than what you specifically describe in your application and plans, and as modified by the conditions of this permit. If you wish to alter the project or permit conditions, you must first obtain written approval of the Department.
4. Before you start your project, you must first obtain any permit or approval that may be required for your project by local zoning ordinances and by the U.S. Army Corps of Engineers. You are responsible for contacting these local and federal authorities to determine if they require permits or approvals for your project. These local and federal authorities are responsible for determining if your project complies with their requirements.
5. Upon reasonable notice, you shall allow access to your project site during reasonable hours to any Department employee who is investigating the project's construction, operation, maintenance or permit compliance.
6. The Department may modify or revoke this permit for good cause, including if the project is not completed according to the terms of the permit or if the Department determines the activity is detrimental to the public interest.
7. **You must post a copy of this permit at a conspicuous location on the project site, visible from the waterway**, for at least five days prior to construction, and remaining at least five days after construction. You must also have a copy of the permit and approved plan available at the project site at all times until the project is complete.
8. Your acceptance of this permit and efforts to begin work on this project signify that you have read, understood and agreed to follow all conditions of this permit.
9. **You must submit a series of photographs to the Department, within one week of completing work on the site**. The photographs must be taken from different vantage points and depict all work authorized by this permit.
10. You, your agent, and any involved contractors or consultants may be considered a party to the violation pursuant to Section 30.292, Wis. Stats., for any violations of Chapter 30, Wisconsin Statutes, or this permit.
11. Construction shall be accomplished in such a manner as to minimize erosion and siltation into surface waters. Erosion control measures (such as silt fence and straw bales) must meet or exceed the technical standards of ch. NR 151, Wis. Adm. Code. The technical standards are found at: [http://dnr.wi.gov/topic/stormwater/standards/const\\_standards.html](http://dnr.wi.gov/topic/stormwater/standards/const_standards.html).
12. All equipment used for the project including but not limited to tracked vehicles, barges, boats, hoses, sheet pile and pumps shall be de-contaminated for invasive and exotic viruses and species prior to use and after use.

The following steps must be taken every time you move your equipment to avoid transporting invasive and exotic viruses and species. To the extent practicable, equipment and gear used on infested waters shall not be used on other non-infested waters.

1. **Inspect and remove** aquatic plants, animals, and mud from your equipment.
2. **Drain all water** from your equipment that comes in contact with infested waters, including but not limited to tracked vehicles, barges, boats, hoses, sheet pile and pumps.
3. **Dispose** of aquatic plants, animals in the trash. Never release or transfer aquatic plants, animals or water from one waterbody to another.
4. **Wash your equipment** with hot (>140° F) and/or high-pressure water,  
- OR -  
Allow your equipment to **dry thoroughly for 5 days**.

13. No mooring buoys beyond those expressly authorized by this permit are allowed without an amendment of this permit.

14. The pier must allow the free movement of water (using a post or pile driven design) and must not entrap vegetation.

15. The pier must not enclose any portion of the navigable waterway.

16. This permit authorizes future maintenance to the piers; however, no change can be made to the type of materials, number of slips, or pier configuration without written approval from the Department or amendment of this permit.

17. This pier must not interfere with the rights of other riparians.

18. You must charge no more than a reasonable fee for the slip (or mooring) rentals. Reasonable fees are moorage fees charged the general public at similar facilities in the vicinity.

19. You must not cover the piers or slips, or allow any buildings or other structures to be placed or constructed on the piers.

20. Dockside pump-out facilities are not allowed under this permit. If you wish to install dockside pump-out facilities in the future, you will need to re-engage with the Waterways program.

21. Piers and pilings are limited to colors which are not visually intrusive as viewed against the shoreline.

22. Lighting for safety or to facilitate docking may be included and should be down focused, non-intermittent white or yellow light.

23. Roofs, walls, and advertising signs may not be included on the piers. A sign of reasonable dimensions to identify the property is permissible on the upland area only.

24. The pier must comply with NR 102, Wis. Adm. Code to meet Wisconsin water quality standards and the protection of water quality.

25. The pier must comply with NR 151, Wis. Adm. Code's performance standards. Best Management practices to avoid or minimize soil, sediment, or pollutants carried in runoff to waters of the state must be implemented.

26. To minimize adverse impacts on fish movement, fish spawning, and egg incubation periods pier construction may not occur between March 15th and June 15th.

## FINDINGS OF FACT

1. Randall Farr, N2905 Hwy 44, Markesan, WI 53946, filed an application with this Department on 05/21/2025, under sections Sections 30.12 and 30.208, Wisconsin Statutes, to place a pier on Little Green Lake located in the NW 1/4, NE 1/4, Sec. 32, T. 15, R. 13E, Town of Green Lake, Green Lake County.
2. The applicant proposes to expand an existing pier on Little Green Lake. The current pier has 7 slips and will expand to 12 slips. The applicant intends for 9 rental slips, with 3 slips open for transient traffic. The pier materials include pilings and galvanized steel with Titan decking sections that allows for some light infiltration.
3. The Department has completed an investigation of the project site and has evaluated the project as described in the application and plans.
4. Little Green Lake is a navigable water, and no bulkhead exists at the project site.
5. The proposed project, if constructed in accordance with this permit will not adversely affect water quality, will not increase water pollution in surface waters, and will not cause environmental pollution as defined in s. 283.01(6m), Wis. Stats.
6. The applicant is a riparian landowner of two adjacent land parcels with a total shoreline frontage of approximately 262 linear feet along Little Green Lake in Green Lake County. Approximately 214.5 linear feet of frontage is attributed to parcel 006-01270-0000; the remaining approximately 51.5 linear feet of frontage belongs to parcel 006-01271-0000
7. The proposed project will not impact wetlands if constructed in accordance with this permit.
8. The Department of Natural Resources has determined that the agency's review of the proposed project constitutes an integrated analysis action under s. NR 150.20(2), Wis. Adm. Code. The Department has considered the impacts on the human environment, alternatives to the proposed projects and has provided opportunities for public disclosure and comment. The Department has completed all procedural requirements of s. 1.11(2)(c), Wis. Stats., and NR 150, Wis. Adm. Code for this project.
9. The Department of Natural Resources and the applicant have completed all procedural requirements and the project as permitted will comply with all applicable requirements of Sections 30.12 and 30.208, Wisconsin Statutes and Chapters NR 102, 103, and 326 of the Wisconsin Administrative Code.
10. A hybrid public hearing was held on August 4, 2025 at Markesan City Hall located at 150 South Bridge Street, Markesan, WI 53946, with the remote aspect held via Teams. Approximately 31 individuals attended the hearing, with multiple members providing verbal testimony. In addition, written public comments were received during the hearing and during the open public comment period for this application and those comments can be summarized as follows:

Many members of the public were in support of the pier expansion and additional access to the public water body as the closure of a bait and tackle shop led to a reduction of about 40 slips worth of access. Multiple members of the public commented that the pier expansion would help improve local business and recreation of the lake. One member noted the expansion would allow increased accessibility to the lake for those with disabilities.

Others noted that the proposed pier project would be located in a shallow bay and that the increased boat traffic caused by the pier expansion would cause impacts to water quality, aesthetics, recreational safety, and aquatic habitat. The area is used by kayakers and non-motorized boaters, and the additional 5 slips may impact usage. As the pier is associated with a bar and grill business, concerns were voiced that future boaters may be under the influence of alcohol and would increase the risk and likelihood of negligent boating. One member commented that the increase in negligent boating may increase policing of the lake and result in fewer customers frequenting the lake businesses. Other written comments included that additional boats increase the likelihood of a potential gas or oil spill affecting nearby wetland habitat, and

that the additional safety light impacts the appreciation of natural scenic beauty and star-gazing. Some concern was noted at the lack of community discussion prior to applying for a pier expansion.

Members both in favor and opposed to the pier expansion requested a slow/no-wake ordinance be established in the bay.

11. Riparian property owners have an established riparian right to place structures for navigational purposes, qualified by the structure's impact on the navigation, the public interest in navigable waters and the common law doctrine of reasonable use. DNR has established reasonable use guidelines which are based on linear feet of frontage owned. Based on the amount of shoreline owned by the applicant, the standard presumption of reasonable use for this property would accommodate 13 total boat slips.
12. The structure will not materially obstruct navigation because there is an existing pier, and the expansion does not go further into the lake than what is existing. Furthermore, Warden Bradley Latza was asked to review the pier expansion plan for navigational concerns. No comments were provided.
13. The structure will not be detrimental to the public interest in aquatic habitat, water quality, public recreation or natural scenic beauty. Resource managers in water quality and fisheries were asked to review the current proposal. All resource managers selected "grant with usual conditions".
14. The structure will not materially reduce the flood flow capacity of a stream because the pier will not restrict free movement of water underneath the pier.

#### CONCLUSIONS OF LAW

1. The Department has authority under the above indicated Statutes and Administrative Codes, to issue a permit for the construction and maintenance of this project.
2. The Department has complied with s. 1.11, Wis. Stats.

#### NOTICE OF APPEAL RIGHTS

If you believe that you have a right to challenge this decision, you should know that the Wisconsin statutes and administrative rules establish time periods within which requests to review Department decisions shall be filed. For judicial review of a decision pursuant to sections 227.52 and 227.53, Wis. Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to file your petition with the appropriate circuit court and serve the petition on the Department. Such a petition for judicial review shall name the Department of Natural Resources as the respondent.

To request a contested case hearing of any individual permit decision pursuant to section 30.209, Wis. Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to serve a petition for hearing on the Secretary of the Department of Natural Resources, P.O. Box 7921, Madison, WI, 53707-7921. The petition shall be in writing, shall be dated and signed by the petitioner, and shall include as an attachment a copy of the decision for which administrative review is sought. If you are not the applicant, you must simultaneously provide a copy of the petition to the applicant. If you wish to request a stay of the project, you must provide information, as outlined below, to show that a stay is necessary to prevent significant adverse impacts or irreversible harm to the environment. If you are not the permit applicant, you must provide a copy of the petition to the permit applicant at the same time that you serve the petition on the Department.

**The filing of a request for a contested case hearing is not a prerequisite for judicial review and does not extend the 30 day period for filing a petition for judicial review.**

A request for contested case hearing must meet the requirements of section 30.209, Wis. Stats., and sections NR 2.03, 2.05, and 300.09(5), Wis. Admin. Code, and if the petitioner is not the applicant the petition must include the following information:

1. A description of the objection that is sufficiently specific to allow the department to determine which provisions of this section may be violated if the proposed permit or contract is allowed to proceed.
2. A description of the facts supporting the petition that is sufficiently specific to determine how the petitioner believes the project, as proposed, may result in a violation of Chapter 30, Wis. Stats.;
3. A commitment by the petitioner to appear at the administrative hearing and present information supporting the petitioner's objection.

If the petition contains a request for a stay of the project, the petition must also include information showing that a stay is necessary to prevent significant adverse impacts or irreversible harm to the environment.

## LAND USE PLANNING AND ZONING COMMITTEE STAFF REPORT

PUBLIC HEARING

February 5, 2026

### ITEM III: ZONING CHANGE

**OWNER:**

Lloyd Miller

**APPLICANT:**

Same as Owner

**REQUEST:** The owners are requesting a zoning change for ±8.32 acres from A1, Farmland Preservation District, to A2, General Agriculture District to be identified by Certified Survey Map.

**PARCEL NUMBER / LOCATION:** The request affects parcel number 014-00500-0100 (±8.32 acres). The parcel is located in the W ½ of the SE ¼ Section 35, T15N, R11E, Town of Marquette.

**EXISTING ZONING AND USES OF ADJACENT AREA:** The current zoning of the subject parcel is A1 Farmland Preservation and is used residentially with not much agricultural uses present. All of the surrounding parcels are zoned A1 and are used for agriculture and rural residential use.

**ADDITIONAL INFORMATION / ANALYSIS:** The current use of the proposed rezone area is vacant forested wetland area. The proposed use of the rezone area is to be agricultural with a rural residential use. The proposed rezone area does not fall within floodplain jurisdiction. All the soils on the parcel located within the proposed rezone area are classified as type 4 soils and are not conducive to farming. There is also a large wetland that covers most of the proposed rezone area except for a small area that could be used for a residence.

**STATUTORY CRITERIA PER 91.48(1):** Land may be rezoned out of a farmland preservation zoning district if all of the following are found after public hearing: **(Staff comments in bold)**

- a) The land is better suited for a use not allowed in the farmland preservation zoning district. **All of the proposed rezone area is covered by type 4 soils which would not be suitable for farming. It could be argued that these lands are not well suited to traditional agricultural pursuits.**
- b) The rezoning is consistent with any applicable comprehensive plan. **The proposed rezone is consistent with the county's comprehensive plan as the A2 zoning district upholds the goals and objectives of the comprehensive plan, most prominently the goal to preserve the rural characteristic of the county.**
- c) The rezoning is substantially consistent with the county certified farmland preservation plan. **The overall goal of the county certified Farmland Preservation Plan is to maintain the integrity and viability of county agriculture...without damaging the economic and social environment or the natural resources..." Due to A2's uses being very similar with uses allowed in A1 and the lack of viable soil types, it is staff's belief that the request does not negatively impact the integrity or viability of county agriculture and is, therefore, substantially consistent with the county's certified Farmland Preservation Plan.**

- d) The rezoning will not substantially impair or limit current or future agricultural use of the surrounding parcels of land that are zoned for or are legally restricted to agricultural use. **The A2 District is intended to preserve and enhance land for agricultural uses while allowing for limited rural residential uses. The A2 district is intended not to impair or limit future agricultural use of surrounding parcels.**

**TOWN OF Marquette:** An Action Form requesting the Town's input related to this zoning change request was sent to the Town Clerk. At the Town's December 11<sup>th</sup>, 2025, meeting the Town did not object to and approves the rezone request with the understanding that the driveway will be shared.
